Part I: Introduction

The examination approach of the Kenya Accountants and Secretaries Examination board has changed radically with effect from the June 2000 examination. The new syllabus is **more demanding on students' knowledge, skills and examination technique.**

This revision kit is designed to supplement other reference materials and the study texts supplied by the Distance Learning Centre of the KASNEB PANEL. Singular use may prove inadequate and therefore effective study of the subject should be done prior to use of this kit. The aim is to improve both knowledge and examination technique by providing plenty of opportunity for structured practise of past examination questions reflecting the new examination scheme.

Remember that Accounting papers not only examine candidates on knowledge but also the ability to present information in form of good reports and adapt to practical challenges of meeting strict deadlines. Therefore a candidate must be well prepared to enhance the chances of passing the examination. To achieve a pass or score highly thorough knowledge of the syllabus coupled with skilled presentation of solutions i.e. either proper formats with or and concise explanations to theory questions is essential.

The change to application of International Financial Reporting Standards also poses an additional challenge to the students as it does to professionals in the industry. It is especially demanding on the students since International Financial Reporting Standards are dynamic and the student must keep abreast with the changes.

The edition of financial reporting revision kit includes the following features:

- a) Approach to Examinations
- b) The syllabus;
- c) An analysis of recent examinations;
- d) Topical Guide

All question are provided with full suggested solutions and tutorial notes prepared by KASNEB PANEL.

If you attempt all the questions in the kit together with the mock examinations you will have written answers equivalent to more than ten examinations. So if you write good answers to all of them, you should be well prepared for the final exam. Good luck!

Approach to Examinations

Ensure that you have covered the syllabus adequately either by the Distance Learning Centre study packs or other reference materials. It is very important to maintain a systematic approach to your studies, right up to your examination. Whether it is through private study, distance learning or attending classes, please develop a proper exam strategy.

The following should be the recommended guide:

1. Start your practise and revision with a topic that you find straight forward. This boosts your morale and gives you a bit of self-confidence.
2. The kit includes a bank of illustrative questions covering all aspects of the syllabus. Most of these questions are borrowed from previous examination sittings. Attempt these questions and you may approach the questions by starting with the syllabus areas you are comfortable with. Please do not refer to the solutions provided until you have completed.
3. Compare your answers to the suggested solutions provided. If your solutions are correct then well done. If they are not correct then no problem. Check the solution provided and study carefully how the solution was arrived at.
4. Re attempt the questions again (may be at a later date) and this time check your speed. Ensure that your speed is improved and pay attention to formats and presentation. Your solutions should be neat and well laid out.
5. Once the entire syllabus has been revised and you are confident that you can answer questions successfully, attempt the three mock exams at the end of the kit. Ensure that you sit the papers under strict exam conditions. It may not be wise to refer to the mock exams at any time before you are ready to attempt them. Refrain from turning to these pages until later.
6. The purpose of practising the mock exams is for you to gain experience on the methods of selecting questions, deciding on the order in which you will attempt, managing your time well and producing quality answers. Once you have finished each mock paper and checking solutions please bear in mind that in addition to the experience gained, please assess your performance to determine whether you may be having problems in any of the syllabus areas. Then you can revise again.

Trade payables	<u>87,000</u>	<u>32,200</u>
	<u>625,500</u>	<u>363,400</u>

You ascertain the following:

1. Kwa Limited acquired the shares of Jomvu Limited, cum dividend on 31 March 1999.
2. The general reserve of Jomvu Limited was the same on 31 March 1999 as on 31 March 2000. The balance on the profit and loss account of Jomvu Limited is made up as follows:

	Sh. „,000“
Balance on 31 March 1999	28,000
Net profit for period ended 31 March 2000	32,000
	60,000
Less proposed dividends	<u>15,600</u>
	<u>44,400</u>

3. The stock in trade of Jomvu Limited on 31 March 2000 included Sh.6 million in respect of goods purchased from Kwa Limited. These goods had been sold by Kwa Limited to Jomvu Limited at such a price as to give Kwa Limited a profit of 20% on the invoice price.
4. The balance on the profit and loss account of Jomvu Limited on 31 March 1999, is after providing for preference dividend of Sh.5,600,000 and a proposed ordinary dividend of Sh.5,000,000 both of which were subsequently paid and credited to the profit and loss account of Kwa Limited.

5. No entries have been made in the books of Kwa Limited in respect of the debentures interest due from, or the proposed dividends of Jomvu Limited for the year ended 31 March 2000.
6. On 31 March 2000, the authorized and issued ordinary share capital of Jomvu Limited had been increased by Sh.20 million by capitalizing part of the general reserve and issuing 2 million Sh.20 shares to the existing shareholders in proportion to their existing holdings. The transaction has not yet been reflected in the books of Kwa Limited or Jomvu Limited.
7. Group policy to amortize goodwill on consolidation over 5 years using the straight line method.

Required:

A consolidated balance sheet of Kwa and its subsidiary company Jomvu Limited as at 31 March 2000. **(Total: 20 marks)**

QUESTION THREE

Mwenyeji Limited exported some of its products through an overseas branch whose currency is “Kove”. The trial balances of the Head Office and the Branch as at 30 June 2000 are as follows:

	Head Office		Branch	
	Sh. „000“	Sh. „000“	Kove „000“	Kove „000“
Freehold buildings at cost	14,000		63,000	
Debtors/Creditors	8,900	9,500	36,000	1,560
Sales		104,000		432,000
Issued share capital		40,000		
Components sent to Branch		35,000		
Head Office/Branch Accounts	60,100			504,260
Branch cost of sales			360,000	
Provision of depreciation on machinery.		1,500		56,700
Head Office cost of sales (including goods sent to Branch)	59,000			
Administrative cost	15,200		18,000	
Stock 30 June 1999	28,900		11,520	
Profit and loss account		2,000		
Machinery at cost	6,000		126,000	
Remittances		28,000	272,000	
Cash at Bank	4,600		79,200	
Selling and distribution cost	<u>23,300</u>		<u>28,800</u>	
	<u>220,000</u>	<u>220,000</u>	<u>994,520</u>	<u>994,520</u>

The following adjustments are to be made:

1. The cost of sales figure includes a depreciation charge of 10% per annum on cost of machinery.
2. A provision of Sh.300,000 for unrealized profits in the branch stock is to be made. The closing stock in the branch was sent close to the balance sheet date.
3. On 26 June 2000, the Branch remitted Kove. 16,000,000. This amount was received by the Head Office on 14 July 2000 and realized Sh.1,900,000.

4. During May 2000, a customer of the branch by mistake paid the Head Office for goods supplied by the Branch. The amount due from him was Kove. 320,000 which realized Sh.36,000. It has correctly been recorded in the Head Office books but has not yet entered in the branch accounts.
5. A commission of 5% of the net profits of the branch after charging such commission is payable to the Branch Manager.
6. The exchange rates are:

• At July 1999	10 Kove = Sh.1
• At 30 June 2000	8 Kove = Sh 1
• Average rate for the year	9 Kove = Sh.1
• On date of purchase of Building and Machinery	7 Kove – Sh.1

Required:

- (a) Detailed trading and profit and loss accounts of the Head Office and the Branch for the year ended 30 June 2000.
- (b) A Balance Sheet as at 30 June 2000 combining the figures of the Head Office and the Branch. Ignore taxation. **(Total: 20 marks)**

QUESTION FOUR

Mali Mengi (aged 57) died in a road accident on 31 December 1999. On 1 May 2000 after his executors had paid all debts (except for the mortgage for his freehold house and debt to Mkopeshaji) testamentary and funeral expenses, his estate was ascertained as follows:

	Sh. „000“
Cash in bank accounts	4,250
Freehold house	3,250
Toyota corolla	360
Nissan sunny	220
Television and music system	105
Debt due from Pungufu	40
Furniture and personal effects	302
10,000 ordinary shares in Cement Ltd.	1,200
4,500 ordinary shares in Soko Mjinga Ltd.	370
Sh.800,000 10% Kenya stock	165
Income received to date	
Interest	230
Dividend from Soko Mjinga Limited	<u>37</u>
	267
Less: Mortgage interest paid 31 march 2000	<u>120</u>
	147
	<u>10,409</u>

Extracts from Mali Mengi"s will left bequests as follows:

1. To each of my sons. Kikwajuni, Mnazini, and Mwembeni Sh.1 million.
2. To my wife Darajani, I leave my furniture, household and personal effects and the residue of my estate.
3. To my daughter Nanjale, my freehold house free of all duties. The house was subject to a mortgage of Sh.1 million carrying interest at 24% per annum payable 31 March and 30 September. Duty on the house amounts to Sh.130,000.

4. To my friend Kisitu, one of the motor cars owned by me at the time of my death he may choose.
5. To my friend Mlungu Sh.100,000.
6. To my sisters-in-law Sh.300,000
7. To my cousin, Nipa, my painting of Mausoleum by Kikuvu.
8. To my driver Ndeleva Sh.150,000
9. To my friend Shimba, my holding of Sh.800,000 110% Kenya stock, Mali Mengi owed Shimba Sh.100,000.
10. To my sister Malindi Sh.300,000
11. To my personal assistant, Sijapata half of my holdings in Cement Ltd.
12. To my niece Sinani, 4,000 ordinary shares from my holding of such shares in Cement Ltd.
13. To my nephew Shaibu Sh.200,000 payable out of my shares in Cement Ltd.
14. To my friend Mlungu Sh.50,000.
15. To my neighbour, Jirani Sh.50,000.
16. To my sister Dada, Sh.100,000 to establish a business.

Mali Mengi executors ascertained the following beneficiaries were dead:

- Son Mnazini died in 1997 leaving a wife and two children.
- Son Mwembeni died in 1998 leaving a wife.
- Sister Malindi died in 1996 leaving two daughters.
- Driver, Ndeleva aged 60 died in the same accident as Mali Mengi. It was impossible to determine the order in which Mali Mengi and Ndeleva died.

The executors also advise you that:

- (i). Kisitu chose the Toyota corolla
- (ii). Mali Mengi sold his painting of the mausoleum using the proceeds to purchase his holding in Soko Mjinga Ltd.
- (iii). There is no such investment as 110% Kenya stock. The referees in the will to 110% is thought to be a typing error not previously noticed.
- (iv). Jirani replied in writing that he did not want anything from Mali Mengi because Mali Mengi was a bad neighbour.
- (v). Mali Mengi paid the Sh.100,000 during his life to his sister Dada to establish a business.

Required:

- (a) A statement showing the distribution of Mali Mengi's estate on 1 May 2000. (16 marks)
- (b) A list of legacies to which the executors should not assent, briefly give reasons for the decision. (4 marks)

(Total: 20 marks)

QUESTION FIVE

- (a) As a company reports become larger and more complicated as a result of additional requirements, there is a danger that the essential elements in them become obscure to the unsophisticated user. There may be some merit in examining whether companies should be required to issue, to those who wish it, a simplified form of annual account.

Required:

Explain the arguments that may be advanced against the publication of simplified accounts. (15 marks)

- (b) (i). Distinguish between list A and list B contributories in the case of company liquidation. (2 marks)
- (ii). Under what conditions would a list B contributory be required to contribute in the case of company liquidation? (3 marks)

(Total: 20 marks)

DECEMBER 2008**QUESTION ONE**

Trendsetters Limited operates two branches, one in Nairobi and one in Mombasa. These two branches are supplied from a warehouse in Athi River town where the Head Office of the Company is situated. All purchases are made at the head office. Goods are charged to both branches at selling price, which is head office cost plus 50%. All cash receipts in the branches are banked daily. The following figures relate to the company's performance for the year ended 30 September 2000 and financial position as at that date.

	Head Office Sh. „000“	Nairobi Branch Sh. „000“	Mombasa Branch Sh. „000“
Cash sales banked		110,820	168,000
Credit sales		12,300	8,400
Stock at cost, 1 October 1999	11,750		
Stock at selling price, 1 October 1999		18,300	24,150
Purchases	233,175		
Expenses paid	19,540	9,008	10,825
Goods sent to branches (selling price)		124,155	180,225
Goods received from debtors		12,100	8,525
Property, plant and equipment (Net Book value: 30 September 2000)	25,000	28,000	35,000
Debtors at 1 October 1999		1,200	1,100
Bank overdraft at 1 October 1999	11,800		
Trade creditors at 1 October 1999	42,550		
Trade creditors at 30 September 2000	41,200		
Ordinary share capital: 3 million Sh.10 shares	30,000		
Retained earnings at 1 October 1999	45,946		

Additional information:

- Head office expenses are apportioned equally to the branches.
- A debt for Sh.75,000 became bad during the year at Mombasa branch.
- Goods were transferred at selling price from Nairobi to Mombasa branch at Sh.405,000 and from Mombasa branch to Nairobi at Sh.900,000.
- On 31 May 2000, the day's takings of Sh.525,000 were stolen from Mombasa branch. On 26 December 1999, goods at a selling price of Sh.66,000 had been stolen from Nairobi branch.
- Stocktaking on 30 September 2000 revealed a deficiency of Sh.54,000 at Nairobi branch and a surplus of Sh.30,000 at Mombasa branch (both figures being a selling price). Since no information could not be found for the shortfall in Nairobi, management agreed to account for this as a nominal loss. The surplus in Mombasa was due to goods being sold at a price in excess of the authorized selling price. This was to be reported as a separate line item in the profit and loss account.
- The directors proposed a dividend of 20% on 30 September 2000.
- Income should be provided for 30% of the net profit for the year (assume the taxable profit and the accounting profit are the same figure). Installment tax of Sh.13,000,000 was paid in the year. All bankings in the branches are transferred electronically to the head office bank account out of which all expenses are paid. Ignore depreciation of property, plant and equipment.

Required:

- (a) A stock account and a mark-up account for each branch in column format (10 marks)
- (b) A profit and loss account for each branch and combined total commencing with the gross profit for each branch. (6 marks)
- (c) A debtors control account for each branch, the head office bank account and a balance sheet as at 30 September 2000. (9 marks)

NB: Do not produce a statement of changes in equity, show the retained profit brought forward as a line item in the combined profit and loss account. **(Total: 25 marks)**

QUESTION TWO

The figures that relate to the Profit and Loss Accounts and to the Statement of Charges in Equity for Addis Limited and as subsidiaries Bunyala Limited and Chania Limited for the year ended 30 November 2000 are as follows:

	Addis Ltd.	Bunyala Ltd.	Chania Ltd.
	Sh. „000“	Sh. „000“	Sh. „000“
Sales revenue	84,000	66,000	48,000
Inventory 1 December 1999	(3,824)	(3,757)	(2,822)
Inventory 30 November 2000	4,286	4,124	2,452
Purchases	(50,862)	(49,862)	(38,430)
Distribution cost	(13,440)	(8,050)	(9,600)
Administrative expenses	(8,400)	(3,950)	(6,400)
Taxation: Current	(2,140)	(1,050)	-
Deferred	(1,420)	(300)	2,040
Dividends			
Preference: Interim paid 31 May 2000	-	(450)	-
Final paid 30 November 2000	-	(450)	-
Ordinary: Interim paid 31 August 2000	(3,000)	(500)	-
Final proposed 30 November 2000	(4,500)	(750)	(150)
Dividends received	580	-	-
Retained profit: 1 December 1999	18,300	12,600	9,200
Issued and paid-up share capital:			
Preference share capital	Nil	9,000	Nil
Ordinary share capital	15,000	10,000	3,000

Additional information:

1. Addis Limited acquired 180,000 10% preference shares of Sh.20 each and 800,000 ordinary shares of Sh.10 each on 1 December 1996 when the balance on the profit and loss account of Bunyala Limited was Sh.8,100,000. Goodwill of Sh.2,500,000 had arisen on the purchase of these shares. Addis Limited is amortizing this goodwill over 5 years on the straight line basis.
2. Addis Limited acquired 180,000 ordinary shares of Sh.10 each in Chania Limited on 1 March 2000: the purchase price of these shares was to be fixed once the results for the year ended 30 November 2000 to maintain its trustee status.
3. Bunyala Limited makes sales to Addis Limited at its nominal selling price. In the year ended 30 November 2000, Bunyala Limited's sales to Addis Limited amounted to

Sh.9,300,000. Stock purchased from Bunyala Limited and held by Addis Limited at cost amounted to Sh.540,000 and Sh.720,000 on 30 November 1999 and 30 November 2000 respectively.

4. Addis Limited sold an item of plant to Bunyala Limited on 1 December 1998 for Sh.2,400,000. Addis Limited had marked up its cost by 20%. Bunyala Limited is depreciating this item of plant to nil residual value on the straight line basis over 10 years with the charge appearing as part of cost of sales.
5. There has been no intra-group trade between Chania Limited and other two companies.
6. Group policy in relation to unrealised profit on intra-group sales is of assets so to remove the whole of the unrealised profit from the asset and from the company **which made the profit on the sale of the asset adjusting the minority interest's share** of this profit as appropriate. The amortization of goodwill is classified as an administrative expense and deemed to be a charge against the profit of the holding company.

Required:

The consolidated Income Statement and the portion of the Consolidated Statement of Charges in Equity that relates to accumulated profit, giving the details required by International Accounting Standard and the Kenya Companies Act, including reconciliation of the group retained profit for the year and carried forward.

(Total: 20 marks)

The business has steadily declining in the past few years. The partners have been trying to sell the business as a going concern but have been unable to do so. They decided to sell the assets on a piece meal basis and cash would be distributed to partners as soon as possible in amounts which would ensure that no partner would be called upon to repay any moneys he had received. In the partnership agreement profits and losses were shared between Newa, Omae, Pekka and Omar in the ratio 4:3:2:1 respectively and the application of the rule in Garner Murray was excluded.

Transactions have taken place as follows.

15 May 2000 All the motor vehicles were sold at the Car Bazaar for Sh.975,000 net of selling cost. The money was put into the bank account.

31 May 2000 Cash collected from debtors Sh.122,000 and stock sold to realize Sh.1,070,000 after cost. All creditors were paid and the cash distribution made.

30 June 2000

Cash collected from debtors Sh.248,000 and stock sold to realize Sh.955,000 net. Second cash distribution was made.

31 July 2000

Cash collected from debtors Sh.1,100,000 from sale of stock (net) Sh.1,465,000. Third cash distribution was made.

31 August 2000

Office equipment sold for Sh.1,950,000 (net) and plant and

31 October 2000 equipment sold for Sh.1,610,000. Fourth cash distribution was made.

JUNE 2009

QUESTION ONE

Three firms of accounts decided to amalgamate into a new firm Cheloti Guserwa Kandie & Co. with effect from 1 April 1999. Until 31 March 1999 Apopo, Cheloti and Chuma were partners in Apopo Cheloti & Co. sharing capital and profits equally. Guserwa, Kurgat and Ochieng were partners in Guserwa & Co. sharing capital and profits in the ratio 4:4:1. Kandie was a sole practitioner.

The balance sheets of the firms as at 31 March 1999 were as follows:

	Apopo Cheloti & Co.		Guserwa & Co.		Kandie
	Sh. „000“	Sh. „000“	Sh.„000“	Sh. „000“	Sh. „000“
Fixed assets: Office equipment		450		420	150
Intangible assets: Goodwill		<u>1,500</u>		<u>1,065</u>	<u>240</u>
		<u>1,950</u>		<u>1,485</u>	<u>390</u>
Current assets: Work-in- progress		1,800		1,050	240
Debtors		5,250		2,625	225
Cash		<u>750</u>		<u>300</u>	<u>165</u>
		<u>7,800</u>		<u>3,975</u>	<u>630</u>
		9,750		5,460	1,020
Capital accounts		8,550		4,050	900
Current accounts: Apopo	270		Guserwa	600	
Cheloti	360		Kurgat	390	
Chuma	<u>120</u>	750	Ochieng	<u>60</u>	1,050
Creditors		<u>450</u>		<u>360</u>	<u>120</u>
		<u>2,750</u>		<u>5,460</u>	<u>1,020</u>

The terms of amalgamation were as follows:

1. Apopo retired on 31 March 1999.
2. The capital of the new firm Cheloti Guserwa Kandie & Co. was to be Sh.15 million and profit sharing ratios and capital contributions were to be Cheloti 30%, Chuma 30%, Guserwa 15%, Kurgat 15%, Ochieng 5% and Kandie 5%.
3. In the opening balance sheet of the new firm, office equipment was to be bought at the old book values except for that from Apopo Cheloti and Co. where the value was agreed at Sh.300,000. Work-in-progress was agreed at book value and goodwill for three firms at Sh.3 million. Debtors were taken in at book values less 20% discount. Creditors were paid by the old practices. Apopo and Kandie took any cash remaining in their old practices and Guserwa contributed the necessary cash in his old practice. The total goodwill acquired from old partnerships was in the ratio in which they share profits in the new.
4. Partners introduced their balances of capital in cash
5. A salary of Sh.600,000 per annum per partner was given the new partnership. Drawings of Sh.45,000 per month per partner were allowed: at the end of each half year, partners were allowed to draw Sh.30,000 for each 2½ % share of the partnership profit attributable to that partner.
6. On 1 October 1999, it was agreed to take Maina into the partnership on similar terms as to salary and drawings, with a 2½ % share. The capital and profit sharing ratios were altered to Cheloti 22½ %, Chuma 22½ %, Guserwa 20%, Kurgat 20%, Ochieng

5% and Kandie 7 1/2%. Kandie and Maina could only bring in two thirds of what was required. It was agreed that the remaining one third should remain in a debit in their current accounts to be cleared against future profits. Cheloti and Chuma withdrew equally the cash capital introduced on 1 October 1999 by Guserwa, Kurgat, Kandie and Maina.

7. The profit of the partnership for the year ended 31 March 2000, after deducting partners' salaries was Sh.4,800,000: this profit was deemed to have accrued evenly over the year as opposed to total profit. The partners made all allowable drawings in full.

Required:

- (a) The opening journal entries of Cheloti Guserwa Kandie and Co. (7 marks)
 (b) The capital and current accounts of each partner (in columnar form)
 i. In the old practices, so as to indicate the resultant indebtedness between the partners: (8 marks) ii. In the new practice, so as to indicate the balances on 1 April 1999 and 31 March 2000. (10 marks)

(Total: 25 marks)

QUESTION TWO

The balance sheets of AC Limited, BEM Limited and CET Limited as at 31 May 2000 were as follows:

	AC Ltd. Sh. „000“	BEM Ltd. Sh. „000“	CET Ltd. Sh. „000“

	<u>164,900</u>	<u>112,000</u>	<u>55,000</u>

Additional information:

1. BEM Limited purchased 800,000 ordinary shares in CET Limited on 1 June 1999 for Sh.36 million and Sh.5 million nominal of the 12% loan stock of CET Limited on the same day for Sh.4 million. CET Limited paid an interim dividend of Sh.5 million on 9 January 2000. The directors have proposed a final dividend of the same amount but

this dividend has not been included in the balance sheet above. The balance on the profit and loss account of CET Limited was Sh.30 million at 1 June 1999. Interest on the 12% loan stock has always been paid up to date.

2. AC Ltd. Purchased 2,250,000 ordinary shares in BEM Ltd. On 1 June 1998 for Sh.70 million. The balance on the profit and loss account of BEM Ltd. On that date was Sh.50 million. On the same day AC Limited purchased Sh.10 million nominal of the 12% loan stock in BEM Limited for Sh.8 million. BEM Limited made a profit after tax of Sh.16 million in the year ended 31 May 2000. BEM Ltd. paid a single dividend of Sh.20 million for the year ended 31 May 1999, which AC Ltd. accounted for appropriately. BEM Ltd. paid an interim dividend of Sh.10 million on 11 February 2000 which AC Ltd. credited to its profit and loss account. A final proposed dividend of Sh.15 million has not yet been reflected in the balance sheet of BEM Limited above.

When BEM Limited received the dividend from CET Limited on 10 January 2000, BEM Limited credited its profit and loss account: the dividend is included in the Sh.18 million reported by BEM Limited. BEM limited has always paid interest on the 12% loan stock up to date.

3. Goodwill is carried at cost and amortized at 20% per annum on the straight-line basis.
4. The directors of AC limited ask to provide a final dividend of Sh.10 million.

Required:

The consolidated balance sheet of AC Limited and its subsidiaries as at 31 May 2000.

Note:

Proposed dividends should be shown as current liabilities. (Total: 20 marks)

Mombasa branch administrative expenses	17,072
Mombasa branch distribution costs	

Additional information:

1. The Mombasa branch is managed by a particularly competent group of women. Other than the thefts stated above, there were no shortages or surpluses of goods or cash during the year.
2. Demand for certain casual wear has been high during the year; to prevent stock-outs from occurring; these lines are normally marked up in price using a formula linked to the number of items sold in the proceeding week. Included in the opening stock were goods with a normal selling price of Sh. 800,000 but which had been marked up by a further 10% of this price. The normal selling price of the goods is head office cost plus 60% of cost. All these marked-up goods were sold in the year. Goods with a normal selling price of Sh. 1,120,000 had been marked up by an additional 15%. Three quarters of these goods had been sold by 31 May 2001.

3. In the income statements produced for management, cash stolen and goods stolen are shown as separate line items.

QUESTION FOUR

Maina and Ojara have been in partnership for a number of years sharing profits in the ratio 3:2. Because of the present difficult economic situation in the country, it has been agreed that in the period ended 30 April 2000, no salaries will be paid to the partners and no drawings will be made either. Interest has been credited to the partners in respect of their capital accounts. They decided to turn the partnership into a company on 30 April 2000, with its accounts being made up to 30 April each year. They decided that they would not open a separate set of accounts on 30 April 2000, but would continue to record the transactions of the business in the partnership books.

The trial balance extracted by the accountant, after he had computed the profit for the period ended 30 April 2000 and the year ended 30 April 2001, was as follows

		Sh. „000“	Sh. „000“
Capital accounts at 1 November 1999:	Maina		1,350
	Ojara		750
Net profit before tax: period to 30 April 2000			495
Operating profit before interest and tax: year to 30 April 2001			1,680
210,000 ordinary shares of Sh. 10 each, fully paid up			2,100
20% debentures			450
Stock and work-in progress		1,140	
Trade receivables		1,515	
Cash at Bank and in hand		405	
Interim dividend paid on 28 February 2001		300	
Trade payables			1,530
Purchase consideration for company		2,850	
Land and buildings		900	
Plant and machinery		900	
Vehicles		540	
Depreciation: Land and buildings			30
Depreciation: Plant and machinery			90
Depreciation: Vehicles			135
Loss on revaluation of net assets as at 30 April		<u>60</u>	<u>8,610</u>
		8,610	8,610

Additional information:

- The fair values of the identifiable assets and liabilities of the partnership at 30 April 200 were:

	Sh. „000“
Land and buildings	900
Plant and machinery	900
Vehicles	540
Stock	480
Trade receivables	1,470
Cash at Bank and in hand	750
Trade payables	<u>(2,505)</u>
	2,535

These fair values recorded in the books on 30 April and were the basis used for computing the purchase consideration payables to the partners. Depreciation for the year ended 30 April 2001 has been provided for based on these figures.

- The purchase consideration of Sh. 2,858,000 was satisfied by the issue of 210,000 ordinary shares of Sh. 10 each, Sh. 450,000 20% debentures and the balance in cash. The ordinary shares and the debentures were divided between the partners in their profit sharing ratio. Maina paid the dissolution expenses of the partnership out of his personal bank account in the amount of Sh. 90,000.
- Interest on the debentures for the year ended 30 April 2001 has not been paid and has not accrued for either.

4. The company, which is called Maoja Limited, will pay a final dividend of Sh. 1 per shares on the profit made in the year. This had been decided at a meeting of the board of directors held on 30 April 2001.
5. Income tax at the rate of 30% on the adjusted profit for the year needs to be provided for in the amount of SH. 470,000. No installment tax has been paid since the year under consideration is the first year in which the company operated.
6. Maoja Ltd. has a policy of amortising goodwill over five years on a straight line basis. In the year to 30 April 2001, turnover was Sh. 10,080,000, cost of sales was Sh. 6,720,000, distribution costs were Sh. 1,092,000 and administrative expenses were Sh. 588,000. Included in these expenses items were Directors' Remuneration of Sh. 60,000, staff costs of Sh. 402,000 (including contributions to a defined contribution plan of Sh. 21,000) included in administrative expenses, and depreciation included in distribution costs. Amortisation of goodwill should be included in administrative expenses

Required:

- (a). Prepare the Realisation and Capital Accounts of Maina and Ojaro to record the dissolution of the partnership. (7 marks)
- (b). Prepare for Maoja Limited the income statement for the year ended 30 April 2001 and the balance sheet at that date in conformity with Kenya Companies Act and the International Accounting Standards. Do not prepare the statement of changes in equity – deal with dividends proposed and paid in the income statement. Ignore deferred tax. (13 marks)

Sh. 1,000,000 10% Kenya Stock 2002	<u>274</u>
Cash at bank	<u>12,534</u>

Additional information:

- The market values of the assets above were the same as the probate values except for the shares in E.A Breweries and in BAT (K) which were quoted at Sh. 118 – 122 and Sh. 94 – 98 respectively, the 6% Nairobi City Council Stock which was quoted at Sh. 54 – 58 and the 12% Kenya Stock and 10% Kenya Stock which were quoted at Sh. 108 – 112 and Sh. 98 – 102 respectively.
- On 1 May 2000, the trustees decided to divide the trust into the Special Range, Fixed Interest and Wider Range parts; any necessary balancing adjustments between the funds should be made firstly in cash and then in 10% Kenya Stock 2005.
- On 15 June 2000, the trustees sold the medals Kiprop had won in athletics for Sh. 200,000.
- On 30 September 2000, the tenants of the house in Kileleshwa moved out of the house. It was sold for Sh. 3,9000,000 on 31 October 2005.
- On 31 December 2000, the tenant of the house in Peponi purchased the house, after he obtained an extension of the lease for 50 years from the commissioner of Lands. The agreed sale price was Sh. 6,000,000. The tenant paid Sh. 3,000,000 to the Trustees. The remainder of the purchase price was a mortgage loan to the tenant repayable over 6 years. Interest being charged at 15% per annum.
- The trustees purchased 45,700 ordinary shares in the Nation media Group at Sh. 120 per share on 31 December 2000, on which date the market values of all the other investments were the same as on 1 May 2000. In addition, the trustees used the balance of the cash available to purchase Kenya Government Treasury Bills. When matured, they would be rolled over.
- On 28 February 2001, the trustees decided to liquidate the building society share account to use the proceeds to pay the University fees of one on the beneficiaries of the trust. This transaction was completed on 1 March 2001, with no capital profit or loss being made.
- On 30 April 2001, the purchaser of the Peponi house repaid Sh. 500,000 of the mortgage loan. This amount was immediately invested in Treasury Bills.

Required:

- Prepare a schedule to show the division of the assets on 1 May 2000. (4 marks)

QUESTION FIVE

The parents of Huyu, wale and Hao died in March 1998. Friends and well wishers organized a fund-raising in May 1998 which raised Sh. 3,960,000. This money was to cater for the welfare of the three orphans. Mr. Kilimo, who was appointed the trustee, invested this amount as follows.

	Sh
9,600 ordinary shares of Sh. 10 per value in Fimbo Ltd.	864,000
12,600 ordinary shares of Sh. 10 per value in Lima Ltd.	1,512,000
13,200 ordinary shares of Sh. 10 per value in Pewa Ltd.	<u>1,584,000</u>
	<u>3,960,000</u>

Mr Kilimo also established an accumulation and maintenance trust to hold these investments on behalf of the children. The trust had a wide investment clause. The accounts were to be made to 30 April each year. When a beneficiary reached the age of 21 years, Mr. Kilimo would transfer the share of the fund due to him/her. Huyu turned 21 years on 30 April 2002.

The balances on the accumulation fund for Huyu, Wale and Hao and Hao as at 1 March 2001 were SH. 414,000, Sh. 207,900 and Sh. 69,300 respectively. To that date, Mr. Kilimo had used accumulated income to purchase 5,775 ordinary shares of Sh. 10 per value in Pewa Ltd.

In the year to 30 April 2002, Sh. 445,500 was received from capital investments and Sh. 124,740 from accumulation investments. Maintenance payments were made as follows:

Huyu	Sh. 154,000
Wale	Sh. 162,000
Hao	Sh. 188,000

On 30 April 2002, the market value of the shares in the companies, all listed at Nyumbani stock Exchange (NSE) were as follows:

Fimbo	Sh. 120 per share
Lima	Sh. 160 per share
Pewa	Sh. 140 per share

Huyu was to receive 10,000 shares of Sh. 10 per value in Lima Ltd. and the balance due to him on capital would be made up of the shares in Fimbo Ltd. Out of the accumulation assets, Huyu was to receive Sh. 64,444 in cash and the balance in shares in the Pewa Ltd.

Required:

- (a). The beneficiaries and accumulation accounts for the period ended 30 April 2002.
(8 marks)
- (b). The distribution statements for the capital and accumulation assets as at 30 April 2002. (7 marks)

(Total: 15 marks)

JUNE 2011

QUESTION ONE

Athi River Cement (ARC) Ltd. is a company quoted on the Nairobi Stock Exchange. It makes up its accounts to 31 March each year. The balance of the company as at 31 March 2003 is as follows:

	Sh. Million	Sh. Million
Administrative expenses	99	
Borrowings		103
Buildings: Valuation at 1 April 1998	180	
Accumulated depreciation		30
Capital work in progress	74

	<u>2,497</u>	<u>2,497</u>

Additional information

1.	Borrowings comprise:	Sh.million
	Bank overdraft (interest are payable in the year 20%)	53
	Bank loan, repayable 31 March 2005 (interest rate 13% fixed)	<u>50</u>
		<u>103</u>
2.	Buildings: Historical cost	60
	Depreciation charge for the year included in cost of sales	6

ARC's accounting policy in relation to the difference between depreciation based on the revalued amount of buildings (Sh.6 million) and depreciation based on the buildings' historical cost (Sh.2 million) is to treat it as revaluation surplus realized as

the buildings are used. This transfer for the year has not yet been made.

The buildings had been revalued by Roy and Samika, Registered Valuers and Estate Agents, on an open market basis.

Accumulated depreciation on historical cost of buildings as at 31 March 2003 was Sh.20 million

No impairment losses have occurred in the life of the company

3. Capital work in progress relates to ongoing construction of a new kin.
4. **The compensating tax payable was in respect of the previous year's dividend paid in the year.**
The directors have proposed that a dividend of 10% be paid for the year ended 31 March 2003. No entry has been made in the financial statements to reflect this. Proposed dividends are accounted for as a separate component of equity until they have been ratified at a general meeting.
5. Deferred expenditure represents development costs relating to production of new products that are written off over four years. Expenditure of Sh.20 million was incurred early in the year to 31 March 2003. The amortisation charge for the year was Sh.5 million.
6. The tax expense for the year is as follows:
- | | |
|--|-------------|
| | Sh. Million |
| Current taxation based on adjusted profit at 30% | - |
| Deferred tax expense | <u>17</u> |
| | <u>17</u> |
- Ignore deferred tax on the revaluation surplus
7. Finance lease payable comprise:
- | | Minimum

payments
Sh. Million |
|---|--|--|
| Payable within one year | 3 | 5 |
| Payable later than one year but not later than five years | <u>8</u> | <u>5</u> |
| | <u>11</u> | <u>7</u> |
8. Finance costs comprise:
- | | |
|----------------------------|-------------|
| | Sh. Million |
| Interest on bank loan | 9 |
| Interest on bank overdraft | 16 |
| Interest on finance leases | <u>2</u> |
| | <u>27</u> |
9. Finance income:
- | | |
|------------------------------------|-------------|
| | Sh. Million |
| Interest received on bank deposits | <u>2</u> |
10. Inventories comprise:
- | | |
|-------------------|-------------|
| | Sh. Million |
| Raw materials | 48 |
| Work in progress | 29 |
| Finished goods | 51 |
| Stores and spares | <u>58</u> |
| | <u>186</u> |
11. The depreciation charge for the year on the plant and machinery was Sh.52 million

and the amortisation charge of the prepaid operating lease rental was Sh.2 million
All depreciation and amortisation charges are included in cost of sales

12. Other expenses included in the various functional expenses or cost of sales are:

	Sh. Million	Sh. Million
Directors' emoluments: Fees	2	
Other emoluments	<u>12</u>	14
Other staff costs: Wages and salaries	81	
Social security cost (NSSF)	2	
Termination benefits	<u>3</u>	86
Auditors' remuneration		2
Loss on disposal of motor vehicles		<u>3</u>
		<u>105</u>

The average number of staff employed by the company during the year was 603.

13. The authorized share capital of the company is made up of 90 million ordinary shares of Sh.5 each.

Required:

Prepare the Income Statement and the Statement of Changes in Equity for the year ended 31 March 2003 and the Balance Sheet as at 31 March 2003. ARC Limited prepares its Balance Sheet showing Total Assets and Total Equity and Liabilities. Any notes necessary to ensure that the Financial Statements are prepared in accordance with International Financial Reporting Standards should be added, but using only the information included above. Do not compute the Earnings Per Share for the year.

QUESTION TWO

Kioko, Licha and Mengo had started a partnership on 1 April 1992 when they contributed capital of Sh.9 million, Sh.3 million from Kioko, Sh.2 million from Licha and Sh.4 million from Mengo. No salaries were to be paid to any of the partners, but interest would be credited at 20% per annum – computed on these amounts – and any remaining profit was to be shared equally amongst the partners.

As at 31 March 2002, the balance sheet of the partnership was as follows (shown horizontally for conciseness):

Assets:				Capital and Liabilities	Kioko	Lich	Mengo	Total
Property, plant and equipment	Cost Sh."000"	Depreciation Sh."000"	NBV Sh."000"	Capital	Sh."000"	Sh."000"	Sh."000"	Sh."000"
				Fixed Capital				
Freehold land	2,000	Nil	2,000	Accounts	<u>3,000</u>	<u>2,000</u>	<u>4,000</u>	9,000
Buildings	3,000	900	2,100	Current Accounts	<u>3,190</u>	<u>2,000</u>	<u>1,500</u>	<u>6,600</u>
Plant and machinery	12,000	3,000	9,000	Current Liabilities				
Motor vehicles	<u>4,000</u>	<u>3,000</u>	<u>1,000</u>	Trade payables				7,360
	<u>21,000</u>	<u>6,900</u>	<u>14,100</u>					
Current assets:								
Inventory		4,400						
Trade receivables		3,400						
Cash at bank		<u>1,150</u>	<u>8,950</u>					
			<u>23,050</u>					<u>23,050</u>

The business was run by the partners to 31 March 2003. They decided to convert the partnership into a limited company with effect from 1 April 2003. This was to be achieved as follows:

1. Property, plant and equipment had been depreciated on opening cost (no assets had been bought or sold in the year to 31 March 2003) by 3% on buildings, 12½% on plant and machinery and 12½% on motor vehicles. The company would take over the land, buildings, plant and machinery at Sh.5 million, Sh.4 million and Sh.10 million respectively. The partnership owned three motor cars which had all be bought at the same time: the one Kioko uses cost Sh.1.6 million; the one Licha uses cost Sh.1.4 million; the one Mengo uses cost Sh.1 million; all the cars have a useful life of eight years and a residual value of nil. Each partner was to take over the motor car he uses – Kioko's for Sh.400,000, Licha's for Sh.260,000 and Mengo's at Sh.205,000.
2. Inventory valued at cost for Sh.5.2 million was to be transferred to the company for Sh.5.7 million. One trade receivable for Sh.1.2 million was to be collected personally by Kioko; the partners estimated that only Sh.840,000 would be collected from this debtor. Sh.2.9 million, the balance of trade receivables, would be transferred to the company at book value. Trade payables in the partnership at 31 March 2003 stood at Sh.5.1 million. If payment could be made by 30 April 2003, this liability could be settled for Sh.4.5 million. It was agreed by the three partners that they would introduce Sh.3.22 million immediately to raise the cash in the business to an amount just sufficient to clear this liability immediately so that trade payables could be transferred at Sh.4.5 million. The actual payment to creditors was made by the company a few days later. Kioko paid Sh.1,225,000 into the partnership bank account; Licha paid in Sh.355,000 and Mengo paid in Sh.1,640,000.
3. The new company, Kiligo Limited, had an authorized share capital of 2 million shares of Sh.10 each. These shares would be issued to the partners at a premium of 50% in satisfaction of the purchase consideration.
4. Kioko had made drawings of Sh.1,440,000 in the year, Licha Sh.960,000; Mengo Sh.1,200,000.

Required:

- (a) Prepare the realization account of the partnership as at 31 March 2003 (8 marks)
- (b) Prepare the partners' capital accounts for the year ended 31 March 2003 (current accounts should be closed off to the capital accounts as early as possible) (8 marks)
- (c) Prepare the opening Balance Sheet of Kiligo Limited. (4 marks)

(Total: 20 marks)

QUESTION THREE

Mapito Limited is an insurance company with a head office in Nairobi and branches in all the major towns in Kenya. Each branch maintains a separate set of books. However, for control purposes, all the property, plant and equipment in the branches are carried in the head office books, as are depreciation accounts for all these items.

The current accounts between the head office and the Mombasa branch do not agree at the company's year-end, 31 March 2003. The accounts had been agreed at the previous year end 31 March 2002. The difference in the current accounts is due for the following items:

1. Bamburi Beach Hotel has a number of policies with Mapito Limited. Since it is a large client, these policies are dealt with by the head office in Nairobi. The hotel had paid Sh.846,000 by cheque to the Mombasa branch on 1 January 2003 for the year to 31 December 2003. The Mombasa branch credited the Fire Premium Account with this amount.

At 31 March 2003, the head office showed Bamburi Beach Hotel as a debtor in this amount, the income aspect of the transaction having been accounted for correctly.
2. Likoni Ferries Limited sold one of its ferries on 30 September 2002. It informed the branch in Mombasa of this fact, and requested a credit note for the return premium in the amount of Sh.228,000. The Mombasa branch had never issued the credit note as required, but a credit note had been issued by the head office on 19 March 2003 for the sum involved, being recorded in the premium account as a return premium in the head office books. Likoni Ferries Limited has no account in the head office books. The other side of the return premium has been accounted for correctly. The head office Chief Accountant wants every aspect of the return premium accounted for correctly.
3. A cheque for Sh.650,000 was sent by the Mombasa branch to the head office in Nairobi on 15 August 2002. This cheque has never been received in the head office. The Mombasa branch issued a stop order to its bank on 18 March 2003, after the cheque had already gone stale. No entry has been made in the head office books in relation to this cheque, but it is still included in the Bank Reconciliation Statement prepared by Mombasa branch as at 31 March 2003.
4. The General Manager and the Chief Accountant of the head office traveled to Mombasa for the working week from 10 February to 14 February 2003. The travel expenses and accommodation in Mombasa were paid for the head office in the amount of Sh.68,000, and were charged to Mombasa branch. The debit note was mistakenly paid to Rainbow Travels in Nairobi in the amount of Sh.68,000 by Mombasa branch. Mombasa branch had charged these visits to the head office. However, the expenses of the visits should be charged to the Mombasa Branch Travel Expenses Account.
5. Mombasa branch bought new air-conditioning units for Sh.960,000 on 1 April 2002. This amount was charged to office repairs by Mombasa branch. However, it should have been capitalized and depreciated using the straight-line method with a residual value of nil and a useful life of 10 years.
6. The motor car provided to the manager of the Mombasa branch had cost Sh.1,200,000 and had been depreciated by 75% (residual value nil) at 31 March 2002. The manager took over this car at an Automobile Association (AA) valuation of Sh.280,000 as at 31 March 2003. Although the logbook of the car shows the owner of the car to be the manager at 31 March 2003, no entry has been made for the depreciation of the car for the year – its useful life is four

years – nor for its disposal. The manager had paid for the car by depositing a cheque for Sh.280,000 in the branch's bank on 25 March 2003 – the branch accountant had treated this as a loan to the branch. Unfortunately, the cheque was dishonoured by the bank and the branch was charged Sh.2,000 in bank charges. Company policy is that bank charges on dishonoured cheques are payable by the person whose cheque is dishonoured. The branch accountant has not yet accounted for the dishonouring of the cheque, or for the disposal of the car.

7. The depreciation charge for Mombasa branch for property, plant and equipment other than mentioned above was Sh.670,000. The branch accountant has not yet passed an entry to record this figure, but the head office account had done so.
8. The Mombasa branch had paid China Roads Limited Sh.1,100,000 for goods stolen while in transit in Kilindini Port. The claim was charged as a claim paid by Mombasa branch in the year ended 31 March 2003. However, the original policy was with the head office of Mapito Limited and the claim had been provided for in the amount of sh.1,400,000 in the accounts of the head office for the year ended 31 March 2002.

Required:

Show the journal entries for both the head office and the Mombasa branch, entries required to reconcile the current accounts.

The head office journal and the branch should be kept completely separate. Unearned

premiums are calculated on the $\frac{1}{365}$ ths basis, but have not yet been computed in respect of the year.

Additional information:

- The holding company, the subsidiary and the associate had all paid dividends during the year.

A class of assets in the subsidiary had been revalued during the year. Depreciation of Sh.20 million had been written back on the revaluation. The transfer to the revaluation surplus account in the subsidiary was Sh.120 million. The minority interest owns 40% of the share capital of the subsidiary.

Property, plant and equipment which had cost Sh.100 million and on which accumulated depreciation stood at Sh.47 million at 30 April 2002 was sold for Sh.70 million in the year.

The group classifies interest paid as an operating cash flow, there were no accruals at the beginning or at the end of the year in respect of this item. It classifies dividends received as an investing activity and any dividends paid as an investing activity. The bank overdraft is classified as a component of each and cash equivalent.

Required:

Prepare the Consolidated Cash flow Statement for the year ended 30 April 2003 for the group using the indirect method. **(Total: 20 marks)**

QUESTION FIVE

Kiura and Maina are life tenants of a trust set up by their uncle. The trustees have investment powers restricted to those contained in the Trustee Act (Chapter 167 of the Laws of Kenya) except they could hold at their absolute discretion 300,000 shares of Sh.10 each in Kilimanjaro Enterprises Limited, a horticultural exporting company run by the uncle.

On 31 March 2002, the balance sheet of the trust was as follows:

		Sh."000"	Sh."000"
Fixed interest investment:	Sh.2 million 10% Kenya stock 2007 (cost)	2,000	
	Sh.2 million 9% Kenya stock 2006 (cost)	1,800	
	Cash at bank	<u>200</u>	
			4,000

Special range investment:	300,000 shares in Kilimanjaro Enterprises Ltd. (cost)		<u>3,000</u>
			<u>11,000</u>
Trust capital			4,000
Fixed interest fund			4,000
Wider range fund			<u>3,000</u>
Special range fund			<u>11,000</u>

In the year to 31 March 2003, the following occurred:

2002

30 June

Interest for the year ended 30 June 2002 was received on 10% Kenya stock.

30 September

School fees for Kiura and Maina were paid immediately using the whole amount received.

30 September

31 December

2003

A final dividend of 75% for the year ended 30 June 2002 was received from E.A.

28 February

Breweries Ltd. (payout rate 10%).

The E.A. Breweries Ltd. shares were sold at Sh.110 each. At the same time, a satisfactory buyer was found for the 300,000 shares in Kilimanjaro Enterprises Limited – these shares were sold for Sh.15 each. Some high yielding 12% Kenya stock 2008 was available at par on this date. It was decided to use all the wide range cash available to purchase this stock and designate it a wider range investment.

Interest was received for the year on the 9th Kenya stock and Sh.42,000 interest was received on the fixed interest cash at bank.

61,250 Sh.10 ordinary shares in ICDI Limited were purchased for Sh.40 per share using the fixed interest cash and a suitable switch was made to ensure adherence to the requirements of the Trustee Act. The market value of the 12% Kenya stock on this date was still par.

31 March All remaining income cash was paid across to the life tenants, after trust administration expenses of Sh.120,000 were paid for the year.

Required:

- (a) Write up the trust cash account, the income account (showing payments to beneficiaries in this account) and the trust capital account for the year ended 31 March 2003. (9 marks)
- (b) Prepare the trust balance sheet as at 31 March 2003. (6 marks)

DECEMBER 2011**QUESTION ONE**

Kijiko and Sahani, who prepare their accounts annually to 30 September, are partners in retail business sharing profits and losses in the ratio of 3:2 respectively.

On 31 March 2003, Kijiko retired and Mwiko was admitted as a partner, profits and losses from that date being shared between Sahani and Mwiko in the ratio of 2:1 respectively. For the purpose of these changes, the value of the firm's goodwill was agreed at Sh. 900,000. No account for goodwill is maintained in the books, adjusting entries for the transactions between the partners being made in their current accounts.

Interest on fixed capitals is allowed at 6% per annum but no interest is charged or allowed on current accounts. The amount due to a retiring partner is payable as to Sh. 250,000 on retirement, the balance being payable in five equal annual instalments commencing on the first anniversary of his retirement. The amount due to retiring partner attracts interest at the rate of 8% per annum.

The trial balance of the partnership as at 30 September 2003 was as follows:

	Sh. "000"	Sh. "000"
Leasehold premises (bought on 1 October 2002)	800	
Purchases	2,040	
Motor vehicles at cost (30 September 2002)	420	
Provision for depreciation – motor vehicles (30 September 2002)		180
Shop fittings at cost (30 September 2002)	180	
Provision for depreciation – shop fittings (30 September 2002)		60
Balance at bank	148	
Salaries	640	
Stock (30 September 2002)	510	
Sales (Sh. 1,393,300 for six months to 31 March 2003)		3,800
Cash paid to Kijiko	250	
Debtors	80	
Creditors		360
Professional charges	54	
Wages	380	
Rates and lighting	168	
General expenses (Sh. 172,000 for six 31 March 2003)	410	
Cash introduced by Mwiko		400
Capital accounts: - Kijiko		500
- Sahani		300
Current accounts: - Kijiko		220
- Sahani		260
	<u>6,080</u>	<u>6,080</u>

Additional information:

- It was agreed that of the Sh. 400,000 introduced into the firm by Mwiko on 1 April 2003, Sh. 100,000 should form his fixed capital, the balance being credited to his current account
- The stock as at 30 September 2003 was valued at Sh. 560,000.

3. Provision is to be made for depreciation on motor vehicles and shop fittings at the rates of 20% per annum and 10% per annum respectively on cost at the end of the year.
4. A motor vehicle which had cost Sh. 120,000 and on which depreciation of Sh. 48,000 had been provided, was taken over by Kijiko on his retirement at its down value.
5. The following drawings by partners are included in salaries:

Sh. "000"	
Kijiko	60
Sahani	40
Mwiko	20

6. As at 30 September 2003, rates paid in advance amounted to Sh. 22,000 and provision of Sh. 8,000 for general expenses was required.
7. A difference in the books of accounts of Sh. 10,000 had been written off at 30 September 2003 to general expenses but had later been found to be due to an undercast of similar amount in the purchases journal
8. Professional charges include Sh. 20,000 paid in respect of the acquisition of the leasehold premises. The total cost of the lease is to be written off over a period of 50 years.

Required:

- (a) The trading and profit and loss account for the year ended 30 September 2003, (Gross profit is to be apportioned on the basis of turnover. Unless otherwise indicated, expenses are to be apportioned on a time basis). (10 marks)
 - (b) The partner's current accounts as at 30 September 2003. (4 marks)
 - (c) The balance sheet as at 30 September 2003. (6 marks)
- (Total: 20 marks)**

QUESTION FIVE

Moses Waigwa died as a result of a motor accident on 5 September 2006. His estate at death after payment of debts, funeral and other expenses consisted of the following assets.

	Sh.
Freehold house	900,000
Furniture and other personal effects	120,000
Ornamental collection	12,000
12,000 ordinary shares in Kenya Company Ltd.	210,000
Sh.100,000 nominal 10% Treasury stock 2008	92,000
Amount due from motor insurance company	114,000
Debt due from Paul	50,000
Cash in hand and balance a bank	262,000

Through his will executed several years earlier, Moses Waigwa forgave his brother-in-law, Paul, all debts at the date of his death and made the following bequests.

- 1 To my wife Grace, my freehold house, furniture and other personal effects not otherwise bequeathed.
- 2 To my brother William, the sum of Sh. 100,000
- 3 To my good friend Peter Mwaro, the sum sh.20,000
- 4 To each of my sons Maina and Kamau, the sum of Sh. 2,000,000
- 5 To my daughter Ziporah, my holding of Sh. 100,000 nominal 101/4% Treasury stock 2008 and Sh. 40,000 to my nephew Richard payable out of my holding of 9% Treasury stock 2007.
- 6 To my niece Sarah, my holding of 3,000 shares (ordinary) in Kenya Company Ltd.
- 7 To my cousin Kenneth, my motor car.
- 8 To my grandson Jonathan, my ornamental collection
- 9 To my neighbour Peter Mwaro, the sum of Sh. 10,000.
- 10 The residue of my estate to trustees, to provide an income for my wife and thereafter to my grandchildren in equal shares.

You further ascertain the following:

- William and Kamau both predeceased Moses Waigwa, but their respective children Richard and Jonathan both survived him.
- Peter Mwaro, a life long friend of Moses Waigwa, had purchased the house neighbouring that of Moses Waigwa and Grace shortly before the execution of the will.
- There is no such investment as 101/4%. Treasury stock 2008. The date referred to in Moses Waigwa's will is believed to be a typing error not previously noticed.
- Moses Waigwa's had sold his entire holding of 9% Treasury stock 2007 in November 2005.
- Moses Waigwa's car was totally wrecked in the accident of 5 September 2006, the sum of Sh. 114,000 paid by the insurance company represents the agreed value of the motor vehicle at that date.
- In addition to Kamau's son, Jonathan, there were five other grandchildren living at the date of Moses Waigwa's death.
- The Kenya Company Ltd. Changed the par value of the shares from Sh. 10 to Sh. 5 Prior to the death of Moses Waigwa.

However, this had no significant effect on the market price of the shares.

Required:

- (a) A statement showing the distribution of Moses Waigwa's estate (10 marks) (Ignore all income and interest on legacies).

(b) Explain the treatment of the bequests to the following beneficiaries:

- | | | |
|-------|-------------|-----------|

QUESTION FIVE

- (a) **ARGUMENTS AGAINST PUBLICATION OF SIMPLIFIED ACCOUNTS:**

- Accounting information is by its very nature complex. Usually companies operate in a complicated and rapidly changing environment. Therefore to ignore these complexities may present a misleading picture.
- Shareholders need to satisfy themselves that the directors have carried out their stewardship function satisfactorily. In that case, therefore, simplified accounts may not provide sufficient information for them to do so.
- Legislation and international accounting standards insist that financial statements should give a true and fair view. The publication of simplified accounts may be regarded as lowering of professional standards.
- There is a danger that simplified accounts may be used for purposes for which they were not intended e.g window dressing.
- Shareholders who find difficulty in understanding the full account may have reference to professional advisers to assist them.

- (b) **NOTE**

Part (b) of the question is applicable to U.K not in Kenya.
However its solution is as follows:

- (i) - List A consists of these persons who are the company members on the date of winding up. It is a list of present members of the company.

-
- List B consists of the persons who were members of the company during the 12 months period preceding the date of winding up i.e the past members
- (ii) In case the assets of the company are not sufficient to pay the liabilities in the **event of a company's winding up, the liquidator can ask a list B contributory, to** contribute towards the assets of the company if any of the following conditions is satisfied:

QUESTION FIVE

(a) **The first meeting of creditors" voluntary winding up should be held on the same day** when the members have passed a resolution to wind up the company or on the day after. In this meeting the creditors shall:

- Appoint amongst them a chairman
- Join the members to appoint a liquidator
- Join the members to appoint a committee of inspection of up to 5 people.

The directors must present to the members the statement of affairs and the list of creditors. The creditor may also terminate the liquidator earlier appointed by the members

- When the liquidation commenced the creditors shall meet one year after commencement to review the progress and attend to any pending matters. Such meetings are called by the liquidator.
- If the liquidation is not complete after one year the creditors shall meet after lapse of one year for all years in which the liquidation is incomplete.
- When the liquidation is complete the liquidator must call a final meeting and lay before the company and creditors the accounts of winding up.

QUESTION FIVE

WORKINGS

INCOME APPORTIONMENT

- (i) Dividends from K.F.C. shares
 = 10% x par value
 = 10% x (10,000 x 20)
 = 20,000

The entire amount shall be accounted for as income since dividend received is account for as income at the point where it is received; unlike interest which accrues (and is apportioned) on a time basis.

- (ii) Interest from freehold property securities

$1/7/2000 - 31/12/2000 = 5\% \times 400,000 \times 6/12$	10,000
Pre-death (estate capital) = $4/6 \times 10,000$	6,667
Post – death (income) = $2/6 \times 10,000 =$	<u>3,333</u>
	<u>10,000</u>

- (iii) Interest from shares of Kombo and company

Note 5, the shares were received with interest of 5%	
Therefore 105% of the principal =	1,226,400
Principal = $\frac{1,226,400}{105} \times 100$	
= 1,168,000; Interest = 5% x 1,168,000 =	58,400
Interest for 10 months (Estate capital)	
= $10/12 \times 1,168,000 \times 5\%$ =	48,667
Interest for 2 months ($2/12 \times 58,400$) =	<u>9,733</u>
	<u>58,400</u>

QUESTION ONE

Note: The examiner requires the use of merger method of accounting. Merger method of accounting relates to accounting for mergers as per the requirements of IAS 22. Currently the new IFRS 3 that supersedes IAS 22 prohibits the use of merger accounting where a merger takes place. All mergers should now be accounted for the same way as acquisition or purchase method.

NB: The valuation in note 1 of the question may be computed as:

	Sh „000”
Net assets taken over:	2,595
Realisation loss as per trial balance:	<u>(60)</u>
Valuation per note 1:	<u>2,535</u>

Assets – Liabilities = Capital + profit – drawings
 Therefore Net Assets = (1,350 + 750) + 495 – 0
 = 2,595

Notes to the accounts**Note 1 Accounting policies**

These financial statements have been prepared under the historical cost basis of accounting which is modified to accommodate the revaluation of certain properties and in accordance with the applicable IFRSs.

Property plant and equipment is shown at cost or revalued amount less the total accumulated depreciation, which is based on the estimated useful life of the assets.

Inventory has been stated at the lower of cost and net reliable value.

Note 2 Profit before tax

The profit before tax has been arrived at after charging the following expenses

	Sh."000"
Directors fee	205,000
Compensation to director for loss of office	8,500
Depreciation	13,650
Auditors fee	1,400
Staff costs	40,834

Note 3 Taxation

TAKE NOTE

In this question, goodwill arising from consolidation has been amortized over its useful life. However, under the new **IFRS 3** (Business combination), amortization of goodwill is prohibited and such amortization can only be done if the examiner requires so.

Under **IFRS 3**, the following treatment should be adopted for goodwill,

If goodwill is positive, then the amount should be shown in the balance sheet without amortization. Though if the management feels that there is loss of value then this loss known as impairment loss is charged to the profit and loss account and in consolidation the following entries should be passed:

Dr: Group Retained Profit.

Cr: Cost of control with the impairment loss.

Goodwill will now be shown at the new impairment value in the balance sheet.

If goodwill is negative then the standard requires that it should be recognized as income immediately and the following entries will be passed;

Dr: cost of control.

Cr: Group Retained Profit with the full amount of negative goodwill. Therefore, there will be no goodwill appearing in the consolidated

QUESTION TWO

(b) Currently IAS 21 does not refer to the temporal method and closing rate method of translating results of the branch. It does not distinguish between a foreign entity and an entity that is integral to the parent company. However the exchange rates applicable for branches will in most cases be

- Average rate for most profit and loss items,
- Closing rate for monetary items like accounts receivables and payables,
- Historical rate for property, plant and equipment and inventory,
- Actual exchange rate for remittances from the branch to Head office,
- Average rate or special rate if given for goods from the headoffice to the branch,

Any foreign exchange currency differences will be dealt with in the profit and loss account either as an income or expense.

- (a) The three certainties necessary in the creation of a trust are:
- Certainty of object: the object of a trust ought to be certain e.g "I bequeath my house No.68 to my wife:.
 - Certainty of subject: the subject of a trust ought to be a certainty e.g "I bequeath my house No.68 to my son Denis".
 - Certainty of amount. The amount in a trust should be stated in no uncertain terms e.g "I bequeath Ksh.100,000 to my son James:.

Negative goodwill	11
Preference dividend received from S by H	<u>(12)</u>
	<u>378</u>

-Note that under the current IFRS 3 Negative goodwill should be reported immediately as income when it arises.

-Note also that even though the examiner has stated that H Ltd has not yet accounted for its share of dividends receivable from S Ltd and A Ltd; we have assumed that H Ltd has already accounted for

Preference dividends which is included in the PBT. This is because the preference dividends are not shown as a current liability in the books of S Ltd. Which Means that it is either paid or the question has an error. Therefore the most logical assumption is that the subsidiary co has already paid the preference dividend by the balance sheet date.

-The bonus shares in most cases if it is paid out of the pre acquisition profits then it will not affect the computation of goodwill like in the above case. The dividend was paid nearly at the beginning of the year so it means that the pre acquisition profits will reduce by sh40 million and share capital increases by the same. However if the bonus shares are paid out of post acquisition retained profits then this will affect the computation of goodwill because we need the reserves at acquisition.. The approach is to use the reserves at acquisition but the bonus shares received by the holding company in the post acquisition period should be shown as a separate capital reserve paid out of the post acquisition retained profits of the subsidiary.

QUESTION FOUR(a) **Abatement explained:**

When assets are insufficient to pay any class of legacies, all legacies in that category or class shall be reduced to a fraction of the original amount. This is known as abatement – it enables all legacies to be partially satisfied with the few assets available.

If assets are insufficient to pay specific legacies, these will abate rateably and no general or residuary bequests shall be paid.

If assets are sufficient to pay specific legacies but insufficient to pay general legacies, the general legacies shall abate rateably and no residuary bequest shall be fulfilled.

(b) **Classifications of Legacies**

- (ii) Specific
- (iii) General
- (iv) Demonstrative
- (v) Residual
- (vi) Pecuniary legacy

- (i) **Specific legacy** is a testamentary gift of a particular part or the property of the testator, which identifies the part of a sufficient description whether in specific or in general terms and manifests an intention that that part shall be in enjoyed or taken in the state and condition indicated by that description.
- (ii) **General legacy** is a testamentary gift, whether specific or general, of property described in general terms to be provided out of the general estate of the testator, whether or not also charged on any specific part of his estate.
- (iii) **Demonstrative legacy** is a testamentary gift which is in its nature general but which manifests an intention that the gift shall be primarily satisfied out of a special fund or a specified part of the property described in general terms to be provided out of the general estate of the testator, whether or not also charged on any specific part of his estate.
- (iv) **Residual legacy** is a gift of the remainder of the estate of the deceased after all their legacies have been paid.

(a) (i) **Donatio matis causa**

These are gifts in Contemplation of death.

(ii) **Partial Intestacy**

This is where the will does not dispose of all the properties of the testator.

- (b) 1. The gift to Linda – **Kifo being Linda's father**, he is under moral obligation to provide for her. The lifetime gift of Sh. 60,000 will be deemed as if Kifo had made the payment during his lifetime. The balance of Sh. 40,000 may pass to Linda.

2.

Equitable doctrine of conversion will apply although Kifo died before completion of the contract his estate at death is deemed to include the realty (house in Thome) which will go to Elisha under the terms of the will.

3.

The condition in the gift of Lita is contrary to public policy. Lita will take the gift without the condition and will remain free to remarry.

QUESTION FIVE

- (a) (i) Defined contribution plans – are post-employment benefits plans under which an enterprise pays fixed contribution into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees benefits relating to employee services in the current and prior periods.
- (ii) Terminal benefits should be recognized as a liability and an expense when and only when the enterprise is demonstrably committed to either:
- (1) Terminate the employment of an employee or group of employees before the normal retirement date; or
 - (2) Provide terminal benefits as a result of an offer made in order to encourage voluntary redundancy.

Land and buildings

At the date of revaluation land and buildings had a net book value of Sh 210 million (270-60). With a revaluation of sh million, this gives a surplus of Sh 45 million. (255-210)

The accumulated depreciation (60m) represents a 15 years revaluation at Sh 4 million each. The remaining life is 35 years thus depreciation of buildings will now be 175/35 years

Summary PPE is made up as follows

	Cost/evaluation	depreciation	NBV

QUESTION THREE

- a) i) Financial information is said to be relevant if it would influence economic decisions. This is achieved if the information has predictive or confirmatory value. Reliable financial information is achieved when information provided is free from material error and bias and can be depended upon by users to represent or could reasonably be expected to represent.
- ii) Five attributes of reliable information:
1. Faithful representation – the information must represent faithfully the transaction and other events it either purports to represent or could reasonably be expected to represent.
 2. Substance over form – it is necessary that transactions and other events are accounted for and presented in accordance with their substance and economic reality and not merely their legal form.
 3. Neutrality – the information contained in financial statements must be neutral, that is, free from bias.
 4. Prudence – uncertainties should be recognised by disclosure of their nature and the extent and by the exercise of prudence in the preparation of financial statements. Prudence is the degree of caution required in making estimates such that gains or assets are not overstated and losses and liabilities are not understated.
 5. Completeness – information in financial statement must be complete within the bounds of materiality and cost.

- i) Peter Mwaro : where two legacies are given to the same person in the same will, there is a presumption that both legacies are payable where they are of unequal amounts, they are given for different reasons or they are different in nature, ie a pecuniary legacy and a gift of residue. Thus Peter Mwaro is entitled to both the Sh

FREE FREE FREE

- 20,000 and the Sh. 10,000 legacy, although both abate proportionately with the other general legacies due to insufficiency of assets.
- ii) Zipporah: An error made in the will does not negate the gift. The gift to Zipporah will therefore pass and the correction can be made in the will.
- iii) Richard: the gift of Sh 40,000 payable out of my holding of 9% treasury stock 2007 is a demonstrative legacy. As the fund from which the Sh 40,000 is not sufficient the gift becomes a general legacy, and abates with the other general legacies accordingly.
- iv) Sarah : A specific legacy fails by ademption if its subject matter has ceased to exist as part of the testators estate at death. However, ademption does not occur if there has been no substantial change in the nature of the gift. Thus the change of the par value of the shares of Kenya Company Ltd to death will not cause the gift to adeem, and Sarah is entitled to the 12,000 shares held by Moses in the company at the date of death
- v) Kenneth: where in the same accident the testator dies and the asset which is the subject matter of a gift is destroyed, the asset is deemed to have perished before the testator. Thus, the specific gift of my motor car will adeem and Kenneth is not entitled to the proceeds of the insurance claim.

Investment in Andei Limited	94,260	
Motor vehicles (net book value)	6,700	4,900
Purchases	375,400	335,200
Plant and machinery (net book value)	28,900	21,600
Stock	22,100	17,600
Taxation: instalment tax paid	9,100	6,380
	<u>813,460</u>	<u>594,280</u>
Bank overdraft (secured on land and buildings)	6,700	
Creditors	38,200	17,100
Sales	586,600	480,000
Share capital: Authorised, issued and fully paid		
Ordinary shares of Sh.10	60,000	20,000
Profit and loss account	<u>121,960</u>	<u>77,180</u>
	<u>813,460</u>	<u>594,280</u>

Additional information:

1. Closing stock was Sh.24, 200,000 in Mtito and Sh.19,200,000 in Andei.
2. The turnover and expenses in Andei accrued evenly over the year; the rate of gross profit was constant throughout the year.
3. Mtito paid its interim dividend on 15th May 1996; Andei paid its interim dividend on 31 March 1996. Mtito has not yet accounted for any dividend receivable from Andei.
4. Between 1 May 1996 and 30 September 1996, Mtito sold goods to Andei. These goods had cost Mtito Sh.30 million. Mtito earned a gross profit of 37.5% on the selling price of these goods. At 30 September 1996, one sixth of these goods were included in the stock of Andei. Included in the debtors figure for Mtito was Sh.7,200,000 from Andei: Mtito's account in Andei's books agreed with this figure.
5. The self assessment tax returns of Mtito and Andei show the corporation tax charge for the year at Sh.10,020,000 and Sh.7,980,000 respectively; both companies have paid instalment tax on the preceding year basis.
6. The directors have proposed that Mtito should pay a final dividend of Sh.6 million and Andei Sh.3 million.
7. Mtito's accounting policy with regard to goodwill is to carry it as an asset and amortise it over 60 months, on a straight line basis. Mtito removes the whole amount of any unrealised profit on closing stock from the stock and from the company which made the profit, in the latter case adjusting the minority interest, if appropriate. Mtito incorporates the results of operations of Andei as from the

date of acquisition, and carries any dividends to minority interests as a current liability.

Required:

A consolidated profit and loss account for the year ended 30 September 1996 (including reconciliations of the retained profit for the year and carried forward) and a consolidated balance sheet as at 30 September 1996. **(Total: 25 marks)**

QUESTION THREE

Car Mart Kenya (Kenya) Limited has a Head Office in Nairobi and branches in all the main towns in Kenya. Each branch maintains its own account; all accounts are maintained on a computerised system. The current accounts between the Head Office and the Nakuru branch are not in agreement at the company's year end, 30 November 1994. The following information is available:

- The Head Office current account balance as per the Nakuru branch accounts is a credit balance of Sh.8,946,000 after debiting the Nakuru branch loss for the year of Sh.1,680,000.
- All fixed assets (belonging to the Head Office and all branches) are carried in the Head Office books. The Nakuru branch had purchased wheel-balancing equipment for Sh.2.5 million on 14 December 1993; this figure has erroneously been debited into the branch stock account. Although this had been done, the branch accountant had correctly accounted for the depreciation charge for the year in the amount of Sh.250,000. It was only when the Head Office accountant stated „I cannot provide depreciation where there is no asset" that the matter came to light. Neither the asset nor the depreciation has been entered in the Head Office books.
- A Nakuru farmer had paid to the Nakuru branch the amount he owed the Head Office, namely, Sh.180,000. The branch accountant had credited the branch debtors control account with this figure. The Head Office had been unaware that this amount had been paid.
- The Head Office had paid the branch's insurance premiums on 1 June 1994 in the amount of Sh.240,000. The Head Office accounted for this item correctly; the only entry in respect of this payment in the branch books was a debit in the Branch Profit and Loss Account of Sh.120,000 and the appropriate corresponding credit entry.
- The branch had sent one cheque for Sh.212,000 to the Head Office on 29 October 1994 and another for Sh.328,000 on 28 November 1994; the latter cheque had erroneously been credited to the Nanyuki branch account; there was no trace of the former cheque, but the Head Office accountant had put the amount into a cash in transit account as if it had been received from the Bungoma branch.

6. Goods had been sent to the Nakuru branch at cost on 28 November 1994 in the amount of Sh.800,000. These goods were not received in the branch until 2 December 1994 and were not included in the stock count performed on 1 December 1994. The Head Office raised the invoice 4 days after the delivery note had been raised, but it has been decided to account for it correctly, since these goods were not included in the Head Office year-end stock take.
7. An examination of the invoice raised on the Nakuru branch revealed that 6 invoices were at 20% above cost rather than at cost. These invoices totalled Sh.3,636,000. All the goods included in these invoices had been sold by the branch at the correct selling price.
8. Some spares which were valued at Sh.240,000 had been returned by the branch to the Head Office. These had been received into the Head Office stores but no entry had been made in the Head Office books.

Required:

- a) Journal entries to enable the Nakuru Branch accounts and the Head Office accounts to be corrected in respect of these facts. (16 marks)
- b) Compute the correct Nakuru Branch Profit or loss. (4 marks)

QUESTION FIVE

Kena, Limo and Mara had been orphaned when both their parents died in a bus accident in April 1992. Their uncle, Mr. Barua, a stockbroker on the Nairobi Stock Exchange, organised a harambee for them in June 1992 and raised Sh.1, 980,000. He invested this amount as follows:

	Sh.
9,600 Sh.10 Ordinary Shares in KAB Ltd.	432,000
12,600 Sh.10 Ordinary Shares in BBB Ltd.	756,000
13,200 Sh.10 Ordinary Shares in TEA Ltd.	792,000
	<u>1,980,000</u>

He established an accumulation and maintenance trust to hold these investments on behalf of the children. The trust had a wide investment clause. He ruled that accounts be made up to 31 May each year. When each child reached the age of 21, the trustees were to transfer to him his share of the fund at that date. Kena turned 21 years on 31 May 1996.

The balances on the Accumulation Accounts of Kena, Limo and Mara at 1 June 1995 were Sh.207, 900, Sh.103,950 and Sh.34,650. To this date, the trustees had used accumulated income to purchase 5,775 Sh.10 Ordinary Shares in TEA Ltd. On 1 June 1995, there was no cash in the income account in the bank.

In the year to 31 May 1996, Sh.222, 750 was received from Capital Investment and Sh.62,370 from Accumulation Investments and maintenance payments made on behalf of Kena, Limo and Mara were Sh.77, 000, Sh.81, 000 and Sh.94,000, respectively. On 31 May 1996, the market values of the shares in KAB Ltd., BBB Ltd and TEA Ltd, were Sh.60, Sh.80, and Sh.70 respectively.

Kena was to receive 10,000 Sh.10 Ordinary Shares in BBB Ltd. and the balance due to him on capital would be made up of shares in KAB Ltd. Out of the accumulation assets, Kena was to receive Sh.32, 222 in cash and the balance in shares in TEA Ltd.

Required:

The beneficiaries' accumulation accounts for the year ended 31 May 1996 and distribution statements for the capital and accumulation assets as at 31 May 1996. (15 marks)

QUESTION TWO

Banjo, Harpa and Viola have been working in partnership as architects for several years. At 1 September 19 7 summarised balance sheet showed:

Capital Accounts	Shs.		Shs.
Banjo	720,000	Studio	450,000
Harpa	450,000	Motor cars	720,000
Viola	360,000	Equipment	180,000
		Net current assets	180,000
	<u>1,530,000</u>		<u>1,530,000</u>

The partnership agreement allows for 15% per annum interest on capital and profit or loss shared between Banjo, Harpa and Viola in the ratio 5:4:3, respectively. Viola is guaranteed a minimum of Shs.559,000 per annum in addition to her interest on capital.

Banjo retired on 28 February 19 8, on which date the goodwill was valued by an agreed method at Shs.1,080,000. A goodwill account is not to be maintained in the books. Banjo took over the car he had been using – its book value at 1 September 19 7 was Shs.270,000 and agreed valuation at 28 February 19 8 was Shs.207,000. Harpa and Viola continued in partnership, sharing profits or loss equally after allowing interest on capital at 15% per annum as before and with no guarantee share to Viola.

Fees earned were Shs.1,080,000 for the first half-year and Shs.1,400,000 for the second half. The operating expenses were Shs.450,000 and Shs.350,000 for the two half-years respectively. Depreciation on the cars is charged at 20%, on the equipment at 10% per annum on book values.

At 28 February 19 8 Harpa agreed to purchase the studio for Shs.990,000 cash and then to lease it back to the new partnership for Shs.150,000 per annum. The cash was partly used to repay Banjo all but Shs.360,000 of the amount owing to him, interest of 18% per annum being paid on that balance. The profit on the studio was credited to the partnership capital accounts. Harpa and Viola withdrew Shs.720,000 and Shs.675,000 respectively during the year.

Required:

Prepare the partners' capital accounts, the profit and loss account for the year ended 31 August 19 8 and a balance sheet at that date. **(Total: 20 marks)**

QUESTION THREE

Sir Charles' is a fashionable men's clothing store with a Head Office in Mombasa and branches all over Kenya. Books are not maintained in the branches: data is sent by Kenpack Services Ltd. from the branches to a head office computer in Mombasa. A computer program has been developed by Sir Charles' to write up the traditional accounts of each branch in the usual way. The following data relates to the Kisumu branch. All prices quoted are selling prices.

	Sh.' 000'
1 July 1995	
Opening stock (at Head Office cost plus 50% on cost: goods with a normal selling price of Sh.600,000 had with the authority of the Head Office been marked down by 15%/Q).	6,210
Transactions to	
30 June 1996	
Goods received by branch from Head Office (at cost plus 50%)	71,040
Goods returned to Head Office (including one fifth of the opening stock of marked down goods)	1,470
Cash sales (these include the remainder of the opening stock of marked down goods and one half of goods received in the year at a selling price of Sh.720,000 marked down by 50% to clear them - the other half is included in closing stock at the year end) - to general public	38,592
Credit sales (to other retailers)	27,990
Retailer customer returned goods to Kisumu branch	186
Goods received from Kisii branch during the year	246
Goods sent to Kitale branch during the year	321
Retailer customer returned goods to Head Office in Mombasa	522
Cash stolen in transit to the bank on 21 June 1996	129
Goods stolen on the night of 9 March 1996	420

The stock-take carried out on 1 July 1996 confirmed that the book value of closing stock was correct. Kisumu branch expenses amounted to Sh. 19,200,000.

Required:

To test the correctness of the computer program, the chief accountant asks you to write up the Kisumu branch stock account and the Kisumu branch mark-up account, and a memorandum trading and profit and loss account for the year ended 30 June 1996.

		<u>11,000</u>		

You establish the following facts.

Between 1 January 1995 and 31 October 1995, he had made 10 monthly payments of Sh.60, 000 each in respect of his mortgage: mortgage interests for the period was Sh.500, 000. He had made 3 quarterly repayments on his car loan Sh.75, 000 each and on the finance lease on his vehicles of Sh.850, 000 each; interest for the 10 months on the car

loan and finance lease were Sh.100,000 and Sh.600,000 respectively. These payments were made out of his business bank account for the 10-month period to 31 October 1995; sales (both for cash and on credit) totalled Sh.30 million. He collected and banked directly Sh.28 million from debtors and sales; he used Sh.1 million collections for drawings. All creditors at 31 December 1994 were in respect of trade purchases. In the 10 months he had paid Sh 22 million to trade creditors and Sh.5million in respect of expenses. He had neither purchased nor sold any fixed assets, either for his business or his personal use. He had obtained a short-term loan from his uncle on 29 October 1995 for Sh.5 million which he had banked in his business bank account on the same day. Overdraft interest for the period had been charged in the amount of Sh.750, 000. On 31 October 1995, stock at cost was Sh.2 million. Liabilities of Sh.6 million for purchases and Sh.1 million for expenses (including Sh.300, 000 to his 25 employees for months of September and October – all earn in excess of Sh.3, 000 per month, and Sh.260, 000 PAYE deductions not yet paid across to the Income Tax Department) need to be accounted for: The realisable value of assets are: Plant Sh.1.8 million, Motor vehicles Sh.2.5 million, Stock Sh.1.6 million, Debtors Sh.5.5 million, House Sh.4.2 million, Furniture and contents Sh.0.1 million, Motor Car Sh.0.4 million. He had drawn Sh.500, 000 from his business bank account in respect of personal expenses.

QUESTION FOUR

Kena, Limo and Mara had been orphaned when both their parents died in a bus accident in April 1992. Their uncle, Mr. Barua, a stockbroker on the Nairobi Stock Exchange, organised a harambee for them in June 1992 and raised Sh.1, 980,000. He invested this amount as follows:

	Sh.
9,600 Sh.10 Ordinary Shares in KAB Ltd.	432,000
12,600 Sh.10 Ordinary Shares in BBB Ltd.	756,000
13,200 Sh.10 Ordinary Shares in TEA Ltd.	792,000
	<u>1,980,000</u>

He established an accumulation and maintenance trust to hold these investments on behalf of the children. The trust had a wide investment clause. He ruled that accounts be made up to 31 May each year. When each child reached the age of 21, the trustees were to transfer to him his share of the fund at that date. Kena turned 21 years on 31 May 1996.

The balances on the Accumulation Accounts of Kena, Limo and Mara at 1 June 1995 were Sh.207, 900, Sh.103,950 and Sh.34,650. To this date, the trustees had used accumulated income to purchase 5,775 Sh.10 Ordinary Shares in TEA Ltd. On 1 June 1995, there was no cash in the income account in the bank.

In the year to 31 May 1996, Sh.222, 750 was received from Capital Investment and Sh.62,370 from Accumulation Investments and maintenance payments made on behalf of Kena, Limo and Mara were Sh.77, 000, Sh.81, 000 and Sh.94,000, respectively. On 31 May 1996, the market values of the shares in KAB Ltd., BBB Ltd and TEA Ltd, were Sh.60, Sh.80, and Sh.70 respectively.

Kena was to receive 10,000 Sh.10 Ordinary Shares in BBB Ltd. and the balance due to him on capital would be made up of shares in KAB Ltd. Out of the accumulation assets, Kena was to receive Sh.32, 222 in cash and the balance in shares in TEA Ltd.

Required:

QUESTION TWO

Banjo, Harpa and Viola

Assumptions/Notes

- Equipment and motor cars are depreciated at 5% and 10%, for the second half of the year, on book values on 1st September 19 7 and not on book values on 1st March 19 8.
- The loss on the disposal of the motor car to Banjo was charged to the P&L a/c for the 6 months ____ to 28th February 19 8.
- It is assumed that depreciation is not already included in the operating expenses.
- In the solution below, rent payable to Harpa) is deducted from net current assets. An alternative would be to include this in Harpa"s current account.

QUESTION FIVE

- a) (i) A will is a legal declaration by a person of his wishes and intentions regarding the disposition of his property after his death duly made and executed according to the provisions of the law of Succession Act.
- (ii) Reasons for failure of legacies:

Ademption

When the gift specifically bequested does not exist within the testator's property at the time of death, the gift is said to have "adeemed". However, if the gift had been converted into property of a different kind, and such new property falls into the category "traceable" such new property will replace the original gift and be handed over to the beneficiary.

Lapse

Where the beneficiary (legatee) predeceases the testator (legator) the gift is said to fail due to "lapse". There are two exceptions to the rule:

www.knecnotes.co.ke
FREE FREE FREE

If the legatee is an issue of the testator; and the legatee, although deceased, left surviving issue of their own, the gift will pass to such surviving issue from the testators estate).

The testator felt a moral need (or recognised a moral obligation) towards the legatee.

Uncertainty

A gift not expressive of any definite intention shall be void for uncertainty; such uncertainty arising as to:

What is being given

To whom it is being given

The quantity of the interest being given.

Disclaimer

A beneficiary can always disclaim a legacy – and will probably do so if the gift is subject to unfair or unreasonable conditions.

Gifts subject to illegal conditions

A gift will fail if it has an illegal condition attached to it, eg “ I leave Sh.20,000 to my gardener Mwangi provided he murders my wife”. However if the gift is only subject to a condition contrary to public policy (repugnant to equity and justice) the gift will pass whether the condition was fulfilled or not.

(b) Mr Ruare:

The law of intestacy provides for the following situations:

A deceased intestate does not leave behind a spouse or children.

A deceased intestate is survived by a spouse but no children

A deceased intestate is survived by children but no spouse.

A deceased intestate leaves behind both a spouse and children.

NB: If a deceased intestate leaves behind several wives and children all wives married under a system of law that permits polygamy, then his property is divided according to the “households”, after which any of the 4 situations above may apply.

The division amongst the “households” is based on the number of units in each household – where “Unit” refers to surviving spouse or child.

In the case of Mr Ruare:

Households:	House A	House B	House C	Total
Spouse:	1 unit	1 unit	-	2 units
Children	3 units	-	2 units	<u>5 units</u>
				<u>7 units</u>
Property division				
Fractions	4/7	1/7	2/7	

Distribution of personal and household effects:

House A: Luky will obtain absolutely:

$$4/7 \times 350,000 = \text{Sh. } 200,000 \text{ of household effects.}$$

House B: Chity will obtain absolutely:
 $1/7 \times 350,000 = \text{Sh. } 50,000$ of household effects.

House C: Short and Tall will each get absolutely
 $1/2 \times 2/7 \times 350,000 = \text{Sh. } 50,000$ each in household effects. (This is because their mother Beaty had already died).

Distribution of intestate's net estate

House A: Luky will get a life interest in the net estate
worth $4/7 \times 3,150,000 = \text{Sh. } 1,800,000$

Upon her death (or remarriage) it will be divided equally amongst Peter, Lowe and Ricci – each getting Sh. 600,000 worth of property.

Household B:

Chity will get a life interest in property
worth $1/7 \times 3,150,000 = \text{Sh. } 450,000$.

Upon her death, (or remarriage) it will devolve as follows:

To Mr Ruare's father; or if dead

To Mr Ruare's mother; or if dead

To Mr Ruare's brothers and sisters and children of deceased brothers and sisters in equal shares; or if none.

To Mr Ruare's half brothers and half sisters and children of deceased half brothers and half sisters in equal shares; or if none.

To relatives who are in the nearest degree of consanguinity up to and including the sixth; or if none To the consolidated fund of the government.

Household C:

Beaty's children short and Tall will each obtain property worth: $\frac{1}{2} \times \frac{2}{7} \times 3,150,000$ absolutely.

This amounts to Sh. 450,000 per person.

	Luky	Chity	Peter	Lowe	Ricci	Short	Tall
Household & personal	200,000 (absolute)	50,000 (absolute)	-	-	-	50,000 (absolute)	50,000 (absolute)
Net estate	1,800,000 (Life interest)	450,000 (Life interest)	600,000 (Absolute remarriage of Luky)	600,000 upon death	600,000 or	450,000 (Absolute)	450,000 (Absolute)

QUESTION THREE

a) Computation of closing inventory at Head Office

Selling Price to customers by Head Office is 100% and the G.P thereof is 12%. This means the cost of packed toys is 88% (100 – 12). If packaging materials is 10% of the cost of unpacked toys then , cost of unpacked toys and packaging materials will be determined as follows

Let x be cost of unpacked toys
 Therefore packaging materials = 10% of x
 $x + 10\% x = 88\%$
 $x = \frac{88\%}{1.1}$
 Therefore x = 80%

Therefore cost of unpacked toys is 80% and cost packaging materials is 8%

The various margins will now be computed as follows depending on whether it is sales to customers or goods sent tot eh branch.

	Sales to customers %	Goods sent to branch
Sales	100	94
G.P	<u>12</u>	<u>6</u>
Cost of packed toys	88	88
Cost of packing materials	<u>(8)</u>	<u>(8)</u>
Cost of unpacked toys	<u>80</u>	<u>80</u>

The closing inventory of the h/o is made up of

1. Unpacked toys and

2. Packaging materials and therefore each item needs to be determined separately

	Unpacked toys Sh.	Packaging materials Sh.	Total Sh.
Purchases	4,000,000	440,000	4,440,000
Less cos.	<u>3,600,000</u>	<u>360,000</u>	<u>3,960,000</u>

Less: obsolete toys	(10,000)		(10,000)

Closing inventory	<u>390,000</u>	<u>75,000</u>	<u>465,000</u>

C.O.S	Sales to customers %	Goods sent to branch
Sales	2,800,000	1,598,000
G.P	<u>(336,000)</u>	<u>(102,000)</u>
Cost of packed toys	2,464,000	1,496,000
Cost of packing materials	<u>(224,000)</u>	<u>(136,000)</u>
Cost of unpacked toys	<u>2,240,000</u>	<u>1,360,000</u>

2. Closing inventory at the branch

The branch receives goods from the H/O at an invoice price of 94%. The Branch sells these goods to the customers at 100% realising a gross profit of 6% (100 – 94).

Any closing inventory at the branch will have a non-relaised profit of 6%(94 – 88). The unrealised profit on the total value of inventory at the branch (shown at the invoice of 94%) will be given as 6/94

The closing inventory at the branch will be given as follows (packed toy at invoice price)

	Sh.
Goods received from H/O	1,569,040
Less: C.O.S	<u>1,410,000</u>
	159,040
Less: stolen goods (94 x 13,000)	<u>(12,220)</u>
Closing inventory at invoice price	<u>1,461,820</u>
OPC I = 6/94 x 14520	9,371

The examiner has not stated whether the stolen goods at the branch are shown at invoice price to customer or invoice price to branch. We have therefore assured that the invoice price of Sh.13,000 is to customers and therefore to the branch it will be 94% of the amount.

Computation of C.O.G

	Sales to customers %	Ksh.
Sales to customers	100%	1,500,000

General Legacies

To Mwanda (grandson) through Maga"s estate	(10,000)
To Awa (Housekeeper)	(20,000)
To Charles (pastor of church)	(5,000)
To Weru (Neighbour)	<u>(1,000)</u>
	<u>(36,000)</u>
Gift of residue (To grandson Mwanda)	<u>182,800</u>

Notes:

- The gift "my car" fails due to uncertainty of subject – Tantu has two cars and it cannot be established as to which one he intended to bequest.
- The gift "my boat.." fails due to lapse – Pamba predeceased (i.e. died before) Tantu.
- In the gift of £10,000 to each of his sons, one will fail due to lapse – both sons predeceased Tantu. However the exception can only apply to one of the sons; the other did not leave surviving issue – thus the gift will fail
- The gift of £2,000 to his brother in law will fail due to uncertainty of object. It is unknown as to which of the two brothers-in-law was referred to.
- The gift of £5,000 to the church was a gift for a purpose – this purpose had been achieved by means of a lifetime settlement. Thus the gift is said to have adeemed and will not pass.
- The gift of £2,000 to Akida (Shamba-boy) will not pass because the condition precedent was not satisfied.
- The gifts of £1,000 each to both Nyawawa and Langat will lapse.
- The gift of the outboard engine to the water games club will adeem since the outboard engine was sold. It is said to have changed substantially, i.e. it is not traceable.

(a) Rule of lapse

If a beneficiary pre-deceases a testator, a gift from the testator to the beneficiary does not pass on the death of the testator. There are two exceptions to this rule:

- (i) When the beneficiary is issue of the testator; and even though predeceased the testator, he/she had left issue alive at the time of testator's death, the gift from the testator will pass to such issue.
- (ii) The testator had felt a moral obligation towards the beneficiary due to events during their lifetime.

Abatement

When assets are insufficient to pay any class of legacies all legacies in that category/class shall be reduced to a fraction of the original amount. This is known as abatement – it enables all legatees to be partially satisfied with the few assets available.

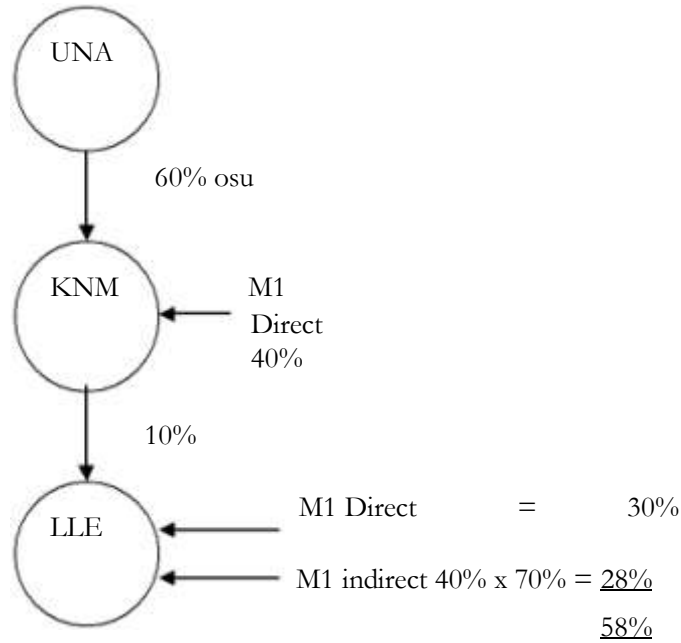

If assets are insufficient to pay specific legacies, these will abate rateably and no general or residuary bequests shall be paid.

If assets are sufficient to pay specific legacies but insufficient to pay general legacies, the general legacies shall abate rateably and no residuary bequest shall be fulfilled.

Selling price $33 \frac{1}{3}$	40,000
100	<u>30,000</u>
Group profits 33%	<u>10,000</u>

Therefore Dr. Group Retained profits 60% x 10,000 = 6,000
 Dr. Minority interest 40% x 10,000 = 4,000
 Cr. Group inventory 10,000

4. The dividends proposed by the subsidiary co. belongs to 3 groups:

- a) The holding company indirectly $60\% \times 70\% \times 50 = 21\text{m}$
- b) The indirect minority interest $40\% \times 70\% \times 50 = 14\text{m}$
- c) The direct minority interest $30\% \times 50 = 15\text{m}$

The share that belongs to the holding company is passed to the group retained profits and the share that belongs to the indirect minority interest is transferred to the MI's a/c. This is because when the subsidiary company pays the dividends to the subsidiary company y then the profits of the subsidiary company will increase. This profits belong to both the holding company indirect minority interest and therefore

- If the directors of a company are of the opinion that the company should be liquidated voluntarily, then they would call an extraordinary general meeting of

the company to pass a special resolution to have the company liquidated. If the company is able to pay all its creditors in full, then a “members voluntary liquidation” can proceed in this case, at the latest practicable date. They must also make out a declaration of solvency which has been sworn before a Commissioner of Oaths and delivered to the Registrar of Companies within 30 days preceding the date of meeting.

If the directors are of the opinion that all creditors may not be paid in full, they must call a meeting of creditors after the meeting of members (to pass the resolution to wind up the company) in order to appoint a liquidator. This is called a creditors’ voluntary liquidation.

QUESTION FIVE

(b) A trust may be constituted in the following ways:

By declaration:

The settler (person holding on to property) makes a declaration stating that henceforth he holds property in trust for specified persons or for persons to be decided at his discretion (discretionary trust).

Eg, upon the death of Mr P, Mr Q (his brother) decided to transfer some of his (Mr Q’s) property to a trust whose beneficiaries are X and Y – children of Mr P; Mr Q making himself the trustee.

By transfer:

The settler (owner of property) transfers property to trustees for them to hold, maintain and manage such property on behalf of beneficiaries. The transfer may be accompanied by terms and conditions on which the trust property is to be held and managed.

Eg, upon the death of Mr P, Mr Q (his brother) decides to transfer some of his (Mr Q’s) property to Mrs P on trust for the benefit of X and Y – children of Mr and Mrs P. The transfer to Mrs P may include directives on how the property should be used to benefit X and Y; and on the transfer of such property absolutely to X and Y (say when they turn 18 years or 21 years).

By Will:

Trusts may be created by means of testamentary gifts, i.e a testator may leave his property to be held by trustees on behalf of named beneficiaries. Eg, a person may have the following stipulation in his will: “I leave my house in Buru Buru to my wife; upon her death it should be absolutely transferred to and owned by my sister....”. The person who is to manage the house may also be named. In this case, the named person will be the trustee who will then manage the property on behalf of the beneficiary (wife). Upon the wife’s death, the trustee should transfer the property to the sister.

By operation of the law:

Here a number of situations may arise:

→ Where a person dies intestate and operation of the law decrees the children to be his beneficiaries, and such beneficiaries are infants, the law provides that the property be held on trust until the beneficiaries attain majority age.

→ **Resulting trusts:**

These exist where equity regards the property which is held by the trustee as belonging to the person who transferred it to the trustee. This may arise in 4 situations:

- (i) purchase of property where two people have jointly advanced the money **but the property is registered in one person's name** – the registered owner holds part of the property in trust.
- (ii) Where a person purchases land and has it conveyed to the name of another (or has it conveyed into the joint names of himself and another) the second person holds the property in trust for the benefit of the person supplying the funds.
- (iii) Failure to exhaust the beneficial interest – if the settler fails to dispose of all trust property through his directives, the undisposed part is held by the trustees on resulting trust for the settler or his estate.
- (i) Where a private express trust fails for uncertainty of objects (beneficiaries) or for non-compliance with statutory formalities, there will be a resulting trust in favour of the settler.

→ **Constructive trusts**

These are trusts imposed by equity regardless of the intention of the owner of the property; it always arises by operation of the law. The concept has been applied in the following:-

- (i) A trustee must not permit his interests to conflict with his duties – and a trustee may not profit from his trust – if he does, such profit does not belong to him; he also holds this on trust.
- (ii) If a person who is not a trustee obtains information/help from a trustee, which enables him to make a profit, such a profit does not belong to that person; he holds this on trust.
- (iii) If a person receives trust property with the knowledge that it is trust property received in breach of trust, he does not own such property; he holds it as a trustee.
- (iv) A person who does not actually receive trust property but assists a trustee to fraudulently dispose of this is as liable as the trustee.
- (b)(i) Odhiambo cannot claim the house as his own. He holds on to it on trust; the beneficiary being Otieno. This is a resulting trust arising from operation of the law – where one person purchases property in the name of another, the second person holds such property on trust.

However, where the person supplying the money is under an obligation to maintain the other (eg father and son or husband and wife) the "presumption of advancement" displaces the "presumption of resulting trust". Thus Odhiambo would be able to claim the house as his own.

- (ii) There are two possible courses of action for the ambassador.
 - First, under trust law, 3 certainties must be fulfilled for a trust to be properly constituted.
 - (2) Certainty of words (there must be an intention to create the trust)

- (3) Certainty of subject (the property subject to the purported trust must be clearly identified)
- (4) Certainty of object (the beneficiaries must be clearly identified)

Where there is uncertainty regarding the beneficiaries, there is a resulting trust in favour of the settler (Boyce Vs Boyce). If the Utopian Ambassador relied on this, the money belongs to him.

- Secondly he may use the law of intestacy and distribute the money should he so wish. He will do so as follows:
 - (1) The last-born in the Kimani family is deemed to have died last and is therefore the beneficiary of the fund.
 - (2) If he/she had left behind a valid will, the money would belong to the residuary legatee as per that will.
 - (3) If he/she did not leave behind a valid will the money will be distributed depending upon whether he/she left behind a spouse or children or both (who may not have been in the house at the time the disaster struck.)
 - (4) Even though the question did not specify so, it can be assumed that the last-born was an infant – thus did not have a spouse or children.

Therefore the ambassador would distribute the money as follows:

- Family members (father, mother, brothers and sisters) who may have been away at the time; if none
- Half brothers and half sisters and children of half brothers and half sisters; and if none.
- Relatives in the nearest degree of consanguinity up to and including the sixth; and if none
- The consolidated fund of the government.

NB:

“Kimani and his members of the family perished...” has been interpreted to mean “Kimani, his wife, his sons and his daughters perished....”
